harmony of external design and location in relation to surrounding structures and topography by an architectural committee composed of a representative subsequently appointed by the Declarant (the "Architectural Committee"), as hereinafter provided. In the event the Architectural Committee fails to approve or disapprove the plans and specifications within sixty (60) days after the complete plans and specifications have been submitted to them in accordance with this Declaration, approval will not be required and this Article will be deemed to have been fully complied with. In the event any improvement is destroyed in whole or in part, the improvement shall be reconstructed in accordance with the original plans and specifications approved by the Architectural Committee and any subsequently approved modifications thereto, or if the Owner desires to change the plans and specifications, all terms and conditions of this Declaration shall be complied with as if no improvement had been previously constructed. The disapproval of such plans and specifications shall be in the sole discretion of the Architectural Committee and shall be based upon the following factors:

- (1) Harmony of exterior design with the existing or proposed improvements to the Lots.
- (2) General quality in comparison with the existing improvements to the Lots.
- (3) Location in relation to surrounding improvements.

- (4) Location in relation to topography.
- (5) Changes in topography.
- (6) Aesthetic considerations.

The Architectural Committee may establish and specify for any Lot, prior to construction, standards and requirements relating to excavation, dirt and fill storage, digging, backfilling, etc. for utility trenches and house construction, the color and composition of roofing materials, the color and composition of bricks or siding, and the style of architecture. Such standards and requirements may include, but not necessarily be limited to, the following: off-site storage of fill dirt or construction debris; stockpiling of fill from utility trenches; backfilling utility trenches; and the general appearance of the houses. Such standards and requirements may vary from Lot to Lot and may be imposed by the Architectural Committee in its sole discretion so as to minimize disruption of trees, tree roots, existing ground cover, or other natural features. Indiscriminate grading or trenching will be strictly forbidden to minimize harm to natural features which protect and enhance the beauty and privacy of the entire Properties and to encourage the aesthetic standards of the neighborhood.

ARTICLE III

LAND USE AND BUILDING TYPE

No Lot shall be used except for residential purposes and such other purposes set forth in this Declaration. No building or other improvement of any type shall be erected, altered, installed, placed or permitted to remain on any Lot other than a detached single family residence together with customary outbuildings and swimming pool as approved by the Architectural Committee. No above ground swimming pool shall be approved or allowed.

ARTICLE IV

SUBDIVISION OF LOT

No Lot shall be re-subdivided after the Lot has been conveyed by the Declarant. This provision shall not, however, be construed to prohibit the Declarant from re-subdividing any Lot or otherwise altering the boundaries of Lots owned by the Declarant or to prohibit any Owner from conveying any part of his Lot to the Owner of an adjacent Lot, provided that the Declarant has approved such conveyance in writing. Such approval shall be in the sole discretion of the Declarant.

ARTICLE V

DWELLING SIZE

No dwelling shall be permitted in any Lot unless the ground floor area of the main structure contains at least 1,400 square feet for a one-story dwelling, exclusive of open porches, patios, terraces, storage areas and garages, and at least 800 square feet for a dwelling of more than one story, exclusive of patios, terraces and other areas not under roof, but inclusive of open porches, storage areas and garages under roof, provided that the floor area of the entire dwelling contains at least 1,400 square feet, exclusive of all open porches, patios, terraces, storage areas and garages. No dwelling shall exceed two stories in height.

ARTICLE VI

BUILDING, DRIVEWAY AND FENCE LOCATION
AND SIGHT RESTRICTIONS

For the purposes of this Article eaves and steps shall not be considered as a part of a building, provided, however, that this shall not be construed to permit any portion of a building to encroach upon another site. No driveway shall be located nearer than one (1) foot to an interior Lot line. No fence or wall shall be located nearer to the front Lot line than the rear of the primary building. No fence or wall shall exceed six (6) feet in height. No fence or wall shall be located nearer than two (2) inches to an interior lot line. The location and design of any fence must be approved by the Architectural Committee in accordance with Article II of this Declaration. The primary and front entrance to each dwelling shall face a street. In the event a Lot has frontage on more than one street, the Declarant shall determine in its sole discretion which street shall be deemed to be the front of the Lot. No landscaping or other improvement which obstructs horizontal sight lines at elevations between two and six feet above the street shall be placed or permitted to remain on any Lot within any triangular area formed by street lines and a line connecting them at points twenty-five (25) feet from the intersection of the street lines. In the case of a rounded corner, the twenty-five (25) feet shall be measured from the point formed by the extension of the street line to form an angle instead of a curve. The same sight line limitations shall apply to that area of every Lot within the ten (10) feet radius emanating from the intersection of any boundary line of a Lot with the edge of the driveway pavement. Trees may be planted and maintained within any of these areas if the foliage line is maintained at a sufficient height to prevent obstruction of such sight lines. The Architectural Committee may, in its sole discretion, grant variances to the restrictions provided for in this Article.

ARTICLE VII

GARAGES

Each building shall have a functional garage attached thereto with a capacity of not less than two (2) automobiles. Garage entrances may face the front lot line. The owner of each lot shall ensure that the garage door is kept closed at all times except when entering or exiting the garage.

Notwithstanding the foregoing, the Declarant shall have the right to use such signs as the Declarant deems appropriate to promote the sale of improved or unimproved Lots. Any sign shall be mounted on a free-standing post or sign holder.

ARTICLE XI

ANIMALS AND CROPS

No animals, livestock or poultry of any kind shall be raised, bred or kept on any Lot, provided, however, domestic dogs, cats or other household pets may be kept, provided they are not kept, bred or maintained for any commercial purpose, and provided further that no more than two (2) such pets shall be kept on any Lot without the approval of the Architectural Committee, and provided further the owner shall maintain all such pets, and pens and structures intended for their use, in a clean and sanitary manner and in a manner which does not create a nuisance to other Owners. In furtherance and not in limitation of the foregoing, the owners of pets shall be responsible for removing from Lots and easement areas any excrement from their pets. No pen, doghouse or other structure intended for an animal shall be constructed or allowed to remain on any Lot unless approved by the Architectural Committee in accordance with Article III of this Declaration. All pets shall at all times be confined within the Owner's dwelling, securely on a leash, or under strict voice control. Mail boxes shall be provided by the Homeowners Association.

ARTICLE XIV

No weeds, underbrush or other unsightly growth shall be permitted to grow and remain on any Lot, and no refuse, trash or other unsightly material shall be placed or permitted to remain on any Lot. Each Owner shall maintain the landscaping, including the trees, shrubs and grass within the boundaries of his Lot, and the exterior of the building located on the Lot in a neat and attractive condition. If the Owner shall fail to maintain or make the repairs or replacements which are the responsibility of such Owner, the Declarant, after not less than ten (10) days' notice to the Owner, shall have the right (but not the obligation) to enter upon such Lot and provide such maintenance or make such repairs or replacements as it deems necessary or appropriate, and the cost thereof shall be payable to the Declarant by such Owner within ten (10) days after the delivery to the Owner of a demand for payment. Amounts due hereunder may be enforced and collected in any manner provided in Article XXVIII, together with interest, costs, and attorneys' fees. For the purpose solely of performing the maintenance authorized by this paragraph, the Declarant's agents and employees shall have the right, after reasonable notice to the Owner, to enter upon any such Lot between the hours of 7:00 a.m. and 6:00 p.m.

ARTICLE XVI

ACCESS TO OTHER PROPERTY

Except for the Declarant, no Owner shall permit or otherwise authorize any portion of any Lot to be utilized as an easement, roadway, driveway, street or other means or method of access, ingress or egress to areas or property not included within the Properties. The purpose of this provision is to preserve and protect the integrity of the exterior boundaries of the Properties, and to preclude and prohibit any break in those boundaries by any easement, roadway, driveway or street granted, permitted or otherwise created by any Owner other than the Declarant. The Declarant reserves the right to grant such easements or create such roadways upon land or lots owned by the Declarant as the Declarant, in the Declarant's sole discretion, determines necessary, appropriate or desirable.

ARTICLE XVII

VEHICLES PROHIBITED

No two (2), three (3) or four (4) wheel motorized recreational vehicle, e.g., go-cart, all terrain vehicle, etc., shall be operated on any portion of the Properties, provided, however, the Declarant may approve certain motorized vehicles designed so as not to disturb the neighborhood, such as electric golf carts, for transportation.
